靜音吸塵機

ULTRASILENCE VACUUM CLEANER

Double Layered Walls

Whirlpool ULTRASILENCE VB2004 vacuum cleaner is a silent design, with double layered walls to cover up the motor & specially designed airflow channel which effectively minimize the noise during operation.

ULTRASILENCE nozzle

Its ULTRASILENCE nozzle is also especially developed with sealed design, which can prevent suction leakage and to reduce the noise. Ultimately it helps to increase the cleaning performance efficiency.

靜音吸塵機

ULTRASILENCE VACUUM CLEANER

Turbo Brush Nozzle

Parquet brush nozzle

VB2004

- Unique designed ULTRASILENCE nozzle
- Turbo brush nozzle
- Parquet brush nozzle
- Washable HEPA13 filter
- LED display
- Metal telescopic tube
- Suction power control
- Dust bag full indicator
- Storage for accessories
- Cord length: 7m
- Automatic cord rewind
- Brush, crevice nozzle & small nozzle
- Overheat protection design
- 2000W
- Dust bag: VAB104

- **Washable HEPA13 filter** captures up to 99.95% dust & allergens. Regular cleaning can recover the filtration efficiency & ensure constant suction power.

- **LED display** shows the levels of suction power when cleaning curtain, sofa, floor tiles/hard floor, carpet and shaggy carpet (From left to right icons are shown in the picture).

- **Storage for accessories** like crevice nozzle & small nozzle.

無塵袋吸塵機

CYCLONEMAX BAGLESS VACUUM CLEANER

Turbo brush nozzle

• **Washable HEPA12 filter** captures up to 99.5% dust & allergens. Regular cleaning can recover the filtration efficiency & ensure constant suction power.

• When the **dust full indicator light** turns to red, it's time to clean up the dust inside the container.

• Dust container has 2 Lit. After opening the cover, it is **easy to empty &** washable to maintain hygiene.

High efficient cyclone technology

- 1 With the powerful cyclone filtration system, dust is compressed & separated. Majority will be collected in the dust container. The conical filter helps to block large dust particles & hairs, ensuring long-lasting suction power.
- 2 Filtration efficiency for HEPA 12 filter reaches 99.5%. It can filter out smaller particles & allergens and keep them in the machine.

VL2003

- Cyclonic filtration system for ensuring long-lasting suction power
- Standard nozzle for carpet/hard floor
- Turbo brush nozzle
- Washable HEPA12 filter
- Metal telescopic tube
- Suction power control
- Indicator for dust full container
- Storage for accessories
- Dust container capacity: 2Lit.
- Cord length: 5m
- Automatic cord rewind
- Brush, crevice nozzle & small nozzle
- Overheat protection design
- 2000W
- HEPA filter: VAF103

無塵袋吸塵機

EASYCOMPACT BAGLESS VACUUM CLEANER

- **HEPA filter** can capture very tiny dust particles.

- **Brush, crevice nozzle & small nozzle**

Parquet brush nozzle

VL1602

- Light & compact. Ease of use & space saving
- Standard nozzle for carpet/hard floor
- Parquet brush nozzle
- Cyclonic filtration system for ensuring long-lasting suction power
- Washable HEPA filter
- Metal telescopic tube
- Suction power control
- Dust container capacity: 1.5Lit.
- Cord length: 5m
- Automatic cord rewind
- Brush, crevice nozzle & small nozzle
- Overheat protection design
- 1600W
- HEPA filter: VAF102

強力吸塵機

EASYCOMPACT VACUUM CLEANER

- **Suction power control.** Suction power can be adjusted according to different cleaning needs.

- **Brush, crevice nozzle & small nozzle**

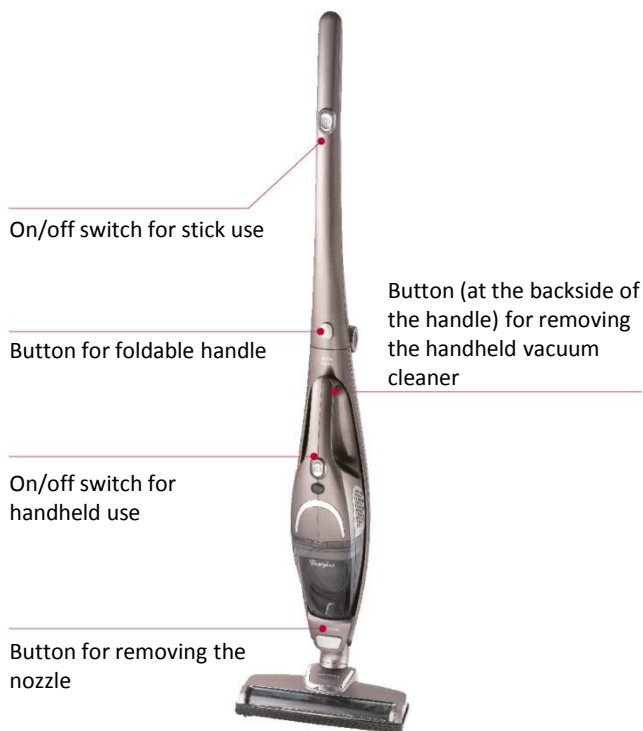

VB1601

- Light & compact. Ease of use & space saving
- Standard nozzle for carpet/hard floor
- Metal telescopic tube
- Suction power control
- Dust bag full indicator
- Cord length: 5m
- Automatic cord rewind
- Brush, crevice nozzle & small nozzle
- Overheat protection design
- 1600W
- Dust bag: VAB101

儲電式手提/直立兩用吸塵機

INSPIRING 2-IN-1 HANDHELD/STICK VACUUM CLEANER

• **Crevice nozzle** is used to clean up narrow spaces in-between the furniture.

• **2-in-1 brush & small nozzle** to pick up dust on the computer keyboard.

• **Rotating brush** can pick up the dust around corner areas.

Foldable handle

Accessories can be stored in the charging stand

Cleaning up the dust is easy by simply removing the dust cup

VS1405

- 2-in-1 design with handheld or stick option
- Cordless operation
- Long-lasting Nickel Metalhydride (NiMH) battery without memory effect
- Cyclonic filtration system for constant suction power
- Rotating brush to pick up the dust/hair quickly
- Washable HEPA filter
- Charging Indicator Light
- Self-standing parking with foldable handle for easy storage
- Crevice nozzle, 2-in-1 brush & small nozzle
- 14.4V

儲電式手提吸塵機

RECHARGEABLE HANDHELD VACUUM CLEANER

Charging base

Storage for accessories

Crevice nozzle,
2-in-1 brush &
small nozzle

VH1806

- Cordless operation
- Long-lasting Nickel Metalhydride (NiMH) battery
- Cyclonic filtration system for constant suction power
- Washable HEPA filter
- 5 hours quick recharge
- Charging Indicator light
- Storage for accessories
- Crevice nozzle, 2-in-1 brush & small nozzle
- 18.0V

Charging base &
Storage for accessories

Crevice nozzle &
brush for
cleaning drawers
& corners

VH9608

- Cordless operation
- Long-lasting Nickel Metalhydride (NiMH) battery
- Dual filtration system
- Washable filter
- Charging Indicator light
- Storage for accessories
- Crevice nozzle & brush
- 9.6V

吸塵機配件介紹

FLOORCARE ACCESSORIES

ULTRASILENCE nozzle

Specially developed ULTRASILENCE nozzle with sealed design to reduce the noise.

Turbo brush nozzle

Brush of the nozzle cleans up the dust deep inside the carpet through rapid rotation during operation.

Parquet brush nozzle

It is soft with horse hair and not able to create scratches on the hard floor.

Standard nozzle

For hard floor and carpet use.

Small nozzle

Suitable for the use on sofa, curtains or furniture.

Crevice nozzle

Cleaning small corners and unreachable areas like narrow spaces in-between walls & furniture.

Brush

Use in the cleaning areas including furniture, photo frame & keyboard.

VAB101 Dust bag VAB101

Each box has 4pcs. For VB1601 vacuum cleaner.

VAB104 Dust bag VAB104

Each box has 4pcs. For VB2004 vacuum cleaner.

HEPA 過濾網 VAF102 HEPA filter VAF102

Each box has 1 pc. For VL1602 vacuum cleaner.

HEPA 過濾網 VAF103 HEPA filter VAF103

Each box has 1 pc. For VL2003 vacuum cleaner.
