脆焗功能 Crisp Cook

脆焗功能加上惠而浦特有的脆焗盤，只需加兩滴油，便可迅速焗出上下表面都香脆的可口美食。以新法快速焗美食，香脆低脂，讓家人食得更健康，香脆美食齊共享！

Place food on the Whirlpool's special crisp plate. Just add 2 drops of oil and the food surface quickly forms a crispy crust. A virtually fat-free and cholesterol-free gourmet is ready within minutes.

3D 立體微波系統 3D Microwave System

能將微波熱量徹底分佈整個爐內空間，均勻覆蓋，令食物內外全面受熱，確保食物達至理想的烹調效果。

The microwaves are emitted in three-dimensional mode, allowing them to penetrate the food more efficiently. Food cooks faster and more evenly.

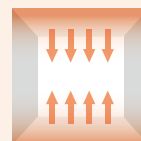

噴射式熱風 Jet Stream

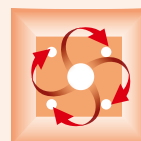

爐腔內置4個強大噴射式出風氣孔，產生熱風對流，熱風迅速全面覆蓋整個爐腔，令熱量均勻，避免食物被燒焦或烘乾，就算最刁鑽的位置都能平均受熱，效果比一般焗爐更理想！

4 powerful forced air inlets inside Jet Chef create convection within the cavity. Jet Stream provides complete and even heat coverage, thus avoiding food surface from being burnt or dehydrated due to direct heating.

第6感「蒸」 6th Sense Steam

因應餸菜重量性質調節最合適的蒸煮時間、溫度及濕度，以溫和的煨燉方法令食物均勻受熱。有效保持食物的營養、色澤及質感，保存原汁原味。

Adjust the most appropriate steaming time and temperature, based on the food nature and weight. It allows food to receive even heat by means of gentle and simmering process, which effectively preserves nutrients and taste.

第6感「翻熱 + 煮食」 6th Sense Reheat + Cook

內置的電子微型處理器、濕度感應器及溫度感應器，自動感應食物的大小份量和濕度來選定合適的烹調時間。翻熱燴菜，既快捷妥當，且能保持原汁原味。

Heats up much quicker than a traditional grill. Fats and grease in the food can be burnt quickly, making food crispy on the outside while fresh and juice can stay inside.
